SALMON MEAL

Product Description

Salmon meal is produced with fresh, aquaculture salmon trimmings/by-products obtained from a certified BAP/BRC processing facility with high technical and hygienic conditions. Due to its natural source, it has an excellent digestibility, high protein, low ash, high in fatty acids and acceptable amino acids. It is highly recommended for pet food due to the addition of Naturox, a natural antioxidant.

Product Applications

For use in Pet Food, Aquaculture, Swine and Poultry.
